

Number Bonds

For today's Maths activity we want you to practice your number bonds to 10.

Number bonds or number pairs are simply the pairs of numbers that make up (in this case) 10.

Here are some songs to help you remember them. — there are plenty more on YouTube.

<https://www.youtube.com/watch?v=lD9tjBUiXs0>

<https://www.youtube.com/watch?v=pd2zVDrGHoc>

Some activities to help you with this are:

- You could make your own counting hands.
- Make your own part—part—whole model and use 10 toys to help you find the answers.
- Make a two colour bead string, you could also do this with Lego—use two colours to show the two parts.
