

Counting in 2's

Counting in twos can be a very tricky thing as you have to miss out every other number. So it is a skill that we need to keep on practicing.

All of the numbers are even.

0 | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20...

When the kangaroo jumps, he jumps by 2. Count by 2s with the kangaroo!

Skip count by 2s up to 30.

2 4 6 8 10 12 14 16
18 20 22 24 26 28 30

So today we want you to practice counting in twos. Here are some examples of activities you could do to help you remember. There are lots of good videos on YouTube to help you. Some get you up and dancing along which is what we often do in the classroom. Send us a picture or a video of what you have done to help you learn counting in twos.
