

Mathematics!

Today, we want you to use your knowledge of subtraction to answer these missing number problems. To find the missing number you circle the first and last number in the sum on your number line. Then count the jumps in between!

$$10 - ? = 8$$

$$12 - ? = 6$$

$$9 - ? = 2$$

$$20 - ? = 4$$

$$16 - ? = 10$$

$$15 - ? = 2$$

$$18 - ? = 5$$
