

# Phonics- Phase 5!

Today we want you to get your phonics hat on! We want you to practise writing some phase 5 words and spotting the different phonemes (sounds) in them! Watch out! Some of these words are trickier because they are longer and some might be alien words!

Your first activity is to go around your house and find some objects, you can sound out, that have a phase 5 sound in (I've added a phase 5 sound mat below to help!) Can you sound out the words and say what phase 5 sound is in them? Can you write the words and sound button them?

Your next activity is to copy the words below into your home learning book and sound button them.

Remember, look out for those phase 5 sounds!

crayon      venue      plume

oyster      whenever      nephew

thirteen      baunch      chimney
