

Maths - Measuring!

Today we have got another Maths challenge for you! We want you to go on a hunt outside and find different leaves/twigs/stones... Whatever you can find! We then want you to order them in size, from shortest to longest. After you have done this, send us a picture on our email of your ordered objects. Have fun and be creative with what you find!

arhyear1@aldermanrichardhallam.leicester.sch.uk

If you have a ruler at home, can you challenge yourself to measure your objects in centimetres?
