

# English- Poems!

Your second activity is to think of different adjectives to describe your family. Remember they need to begin with one of the letters in family. Can you make a list of the different words you can think of?

Your third activity is to now write your acrostic poem!

In your home learning book we want you to write family down the side, vertically and think of a word or phrase beginning with that letter. You can make it as funny or silly as you like! If your up for a challenge why not try and make it rhyme? You can even draw a picture to match your acrostic poem or you could act it out for your family members.

When you've done it why not email it to us? We would love to read your acrostic poem about your family or even see you acting it out in a video!
