

Phonics Disco!

This week for Phonics, we want you to have a phonics disco! Here's how:

Step 1: Find some cool music to dance to! (It works best if it's instrumental/has no one singing! Try typing 'Instrumental disco music' into youtube!)

Step 2: Write the words below on a piece of paper. You'll want them to be big so you can see them while you're dancing!

Step 3: Put on your music and sound them out to the beat of the music. You can even try using a disco dance move instead of your robot arms!

We can't wait to see how you get on! Make sure you post us a video!
