

Activity 3-

Let's write our postcard!

So by now you will have designed your images and made some notes about what to write- now it's time to write our message.

Postcards usually start with Dear or To and then the persons name.

Then you tell the story about what happened or you write what you want to tell them about. Remember its already happened so we want to see some 'ed' words.

Try and make your writing as exciting as possible- use amazing adjectives to make your work more interesting- how can you describe it?

Finish your postcard with Love from and your name.
