

Money

This week we will be looking at money. Please take the time to look at all the coins and notes at home with your children, explaining that these are the only amounts we have to make totals with.

I have attached some games and activities for you to play at home.

- 1) Simple coin game to get them used to recognising coins.

- 2) Finding change game.

<http://www.snappymaths.com/other/money/interactive/changefrom10p1item/changefrom10p1item.htm>

- 3) Make your car. You need read the amount, select the coins to pay for it and then give change.

There are 3 activities set for the week. You do not need to print out the sheets; you can simple write out your answer in the yellow books provided. If you wish to print them you can.

There is a challenge activity if your child wishes to try that too.

Extension Activities

- Can they create their own shop putting prices on items? Take it in turns to pay for items using your coins or create your own coins to use if you don't have enough. The challenge here could be using notes to pay and they try to work out the change.

Times Tables Task – Practise the 4 x tables
